KAVINDU ABEYKOON

FULL-STACK SOFTWARE ENGINEER

Colombo, Sri Lanka | kavinduumayanga058@gmail.com | 076 851 0781 | kavindu-abeykoon
Kavindu-98 | www.kavinduabeykoondev.com

Summary

With over 2 years of professional experience, I am driven to leverage my expertise in full-stack development with front-end and back-end technologies and cloud solutions to drive product innovation. My career highlight includes leading a project that **improved operational efficiency by 50%** .

Skills

Front-End Development: React, NextJS, Typescript, TailwindCSS, HTML, CSS, Javascript

BackEnd Development: NodeJS, ExpressJS

Database Management: MySQL, MongoDB(NoSQL)

Cloud and DevOps: Amazon Web Services(AWS), Google Cloud Platform (GCP), Docker

Others: Git, Redux, Jira, Zoho, OAuth, JWT, Linux

Experience

Software Engineer, Talentfort (Pvt) Ltd. – Colombo, Sri Lanka Oct 2025 – Present

- Architected and optimized MERN based enterprise platforms, boosting performance and modularity across large-scale applications.
- Strengthened application security by implementing OAuth/JWT authentication and integrating critical external services (Payment, Geolocation APIs).
- Guided and mentored developers on modern React/Next.js patterns, driving higher code standards and maintainability.
- Spearheaded scalable feature delivery using Agile methodologies, ensuring long term system growth and operational efficiency.

Associate Software Engineer, Talentfort (Pvt) Ltd. – Colombo, Sri Lanka July 2024 – Oct 2025

- Built and scaled MERN-based enterprise solutions across multiple business domains for global clients.
- Designed scalable, high performance front end architectures with React.js, optimizing component reusability, and reducing page load times for complex business applications.
- Optimized React architecture for performance, modularity, and maintainability.
- Strengthened platform security with OAuth/JWT and third-party API integrations.
- Delivered client driven enhancements in Agile teams while mentoring developers and enforcing code quality standards.

Associate Technical Consultant, SRIQ Corporation (Pvt) Limited – Colombo, Sri Lanka March 2023 – January 2024

- Customized Microsoft Dynamics 365 Business Central (AL) solutions to optimize enterprise workflows.
- Collaborated directly with clients to gather and analyze requirements, then implemented customized enhancements to improve system functionality and user experience.
- Translated client requirements into scalable ERP enhancements, improving operational efficiency.
- Leveraged Microsoft Power Platform tools (Power Apps, Power Automate) to build low-code solutions and automate business processes, enhancing productivity across departments.
- Automated processes using Power Platform (Power Apps, Power Automate).
- Managed CI/CD and version control via Azure DevOps within Agile development environments.

Technical Consultant Intern, SRIQ Corporation (Pvt) Limited – Colombo, Sri Lanka Sep 2022 – March 2023

- Supported ERP customization in Dynamics 365 Business Central (AL).
- Performed testing and assisted with system enhancements.
- Worked with Azure DevOps in Agile environments.
- Explored automation via Microsoft Power Platform.
- Assisted in marketing and branding initiatives.

Education

Bachelor of Science (Honours) in Management and Information Technology March 2020 – April 2024
University of Kelaniya, Sri Lanka

- GPA: 3.25/4.0

Projects

Property Management and Restaurant Application Associated with Talentfort

- Developed a SaaS-based Property and Restaurant Management system with real-time order processing (WebSocket) and secure payment gateway integration using React (Vite), Node.js, and MySQL.

HRIS (Human Resource Information System) Associated with Talentfort

- Built and maintained a scalable HRIS platform with secure authentication, role-based authorization, and automated payroll processing, improving efficiency in employee and HR management workflows using React (Vite), Node.js, MySQL, JWT, REST APIs

Travel Agency Admin Dashboard and Customer Booking Portal Associated with Talentfort

- Developed a full-stack application integrating Google APIs for dynamic data fetching, geolocation, and map-based functionalities to enhance user interaction and automation.
- Technologies: TypeScript, Next.js, TailwindCSS, Redux/Toolkit, Express.js, Node.js, MySQL, Amazon Web Services (AWS)

ERP System Associated with Talentfort

- Built a scalable web-based ERP platform with integrated modules for POS, Inventory, Manufacturing, Supply Chain, Fleet, Finance, and HRM. Implemented modular architecture to optimize business workflows and operational efficiency. Tech Stack: React.js, Tailwind CSS, SQL Database

Freelance Web Development Freelance Project

- Built and deployed client websites using React (Vite) and Node.js.
- Projects: Sandakada Pahana Concert, Gate of Heaven Hiriketiya.
- Technologies: React (Vite), Node.js, Tailwind CSS

Extra-Curricular Activities

Freelance Senior Project Manager **(2025 - Present)**
Trioslk (pvt) Ltd
Team Leader **(2023 - 2024)**
Rotaract Club in University Alumni
Team Leader **(2022 - 2023)**
Rotaract Club in University of Kelaniya
Media Director **(2022 - 2023)**
Industrial Management Science Students'
Association University of Kelaniya
Microsoft Certified: Azure Fundamentals
Issued by Microsoft
